

How to edit files on the Orbit Reader

One can create a new file on the Orbit Reader, or edit an existing one. While in Editor mode, the cursor notes the current position by blinking Dots 7 8.

- Edit new file: Space + N
- Edit current file: Space + E

You can insert any text at the cursor using the braille keys (Dot 1 to Dot 6).

- Backspace: Dot 7
- Enter: Dot 8
- Go to Previous or Next display: Panning keys
- Go to Previous or Next Character: Left or Right Arrow
- Go to Previous or Next Word: Space + Left or Right Arrow
- Go to Previous or Next Paragraph: Up or Down Arrow
- Go to Top or Bottom of a file: Long press Up or Down Arrow

To exit Editor, press Select, Select. The file is saved automatically.
