

BRAILLE WRITING

The Perkins Braille has been the most widely used mechanical braille writer in the world since its invention in 1951. With over 70 years of craftsmanship, the braille stands the test of time with a resilient metal casing and a closed body architecture that limits dust accumulation.

PERKINS BRAILLER

Whether you're learning to read braille or working on a complex math equation, the Perkins Braille was built to accommodate a range of uses. The wide paper length, full margin adjustment and fast response time between typing and output allows for versatile, lifelong use. Did you know - there has been over 395,000 Perkins Brailers sold worldwide!

- Highly durable (known to last for decades)
- Right and left margin guides can be moved to accommodate any paper size
- Leather dust cover included
- 42 cells per line
- 26 lines per page
- Paper size maximum: 29.2 x 35.6 cm
- Weight: 4.8 kg
- 1 year warranty

PERKINS BRAILLE BLOOM

Connect your Perkins Braille® to any screen for real-time communication without barriers.

The Perkins Braille Bloom transforms a Perkins Braille into a modern, plug-and-play braille keyboard, enabling **instant braille-to-text translation** on virtually any screen without the need for apps. Designed to support learning, teaching and communication, it helps students, educators and families strengthen braille literacy with ease.

The Perkins Braille to the internet, Bloom **easily clips onto your Perkins Braille** and quickly **connects via Bluetooth or USB**.

Supporting both contracted and uncontracted braille, Bloom features **on-device UEB translation** for fast and reliable braille input. Instant sleep and wake functionality helps to optimise battery life throughout the day.

Perkins Braille Bloom is **compatible with laptops, desktops, Chromebooks, tablets and smartphones**. It also works seamlessly with a wide range of web-based and messaging applications, including Google Workspace and Microsoft Office.
